

Dear Potential Donor,

I am excited to share with you one of my dreams that is becoming a reality and I invite you to be a part of this incredible journey. I have established GivingMore, a nonprofit organization for the purpose of administering medical aid to those who need it most. The focus of GivingMore is to provide targeted care without an agenda.

April 20th, 2013 was the date of our first medical brigade to Las Salinas, Nicaragua where eight GivingMore volunteers were able to provide free medical care and education to the surrounding communities. We evaluated and treated nearly 500 patients during the week-long trip. Also, thanks to our generous donors, we were able to procure over \$10,000 in medications and medical equipment to donate to local clinics. It was a truly touching experience that we could not have done without donor involvement.

GivingMore addresses urgent needs by allowing medical professionals to provide targeted medical care precisely where it is needed. Medical teams including doctors, nurses, pharmacists, and volunteers will be mobilized into poverty stricken areas in Latin America and other third world countries. Along with medical care, we will continue to provide medical supplies, medication and health education to impoverished people.

We are sincere and passionate individuals helping solely for the sake of helping people in need. GivingMore eliminates doubt about where your donations actually go. 100% of your donations are used only to assist in getting volunteer medical professionals and supplies directly to the people who desperately need them. Please join us in alleviating suffering and restore dignity for all people.

I hope you not only share in my excitement as this journey continues, but that you will join me. We are currently seeking funding for our next medical trip. All donations are IRS tax deductible. Thanks in advance for your support.

Join us in GivingMore,

Oscar J. Martinez M.D. FACEP
